### **Certifying participation in a Data Carpentry workshop**

October 17, 2016

This letter certifies that **FullName** participated in the Data Carpentry workshop at the University of Florida on 17-18 October 2016.

Data Carpentry is a non-profit organization with a mission of building communities teaching universal data literacy. Workshops are two-day, intensive, hands-on workshops designed to train researchers in the computational skills and perspectives needed to work more effectively with data. Workshop content is focused on the needs of active researchers and enables participants to apply the skills learned immediately in their own work.

The topics in this Data Carpentry workshop were Data Organization in Spreadsheets, Introduction to Data Analysis and Visualization in R and SQL for Data Management.

Sincerely,

A handwritten signature in black ink that reads "Tracy K. Teal". The signature is written in a cursive, flowing style.

Tracy K. Teal  
Data Carpentry  
Executive Director
